Types of Upholstery

Color is one of the main characteristics of the Arcos collection, consisting of chairs, armchairs and sofas conceived for home and contract spaces.

In addition to the more traditional finishes, such as powder-coated black aluminium and polished aluminium, the sled base and integrated armrests are available in four additional powder-coated aluminium finishes: blue, green, red earth and yellow ochre. The aesthetic qualities of the product are exalted through the chromatic balance between the color of the sled base and the upholstery.

For this reason we suggest:

Frame Base

ELMOSOFT è una pelle semi-anilina, morbida e flessibile. La sua morbidezza associata alla sua robustezza e ad una vasta gamma di colori disponibili rendono la pelle Elmosoft adatta ad un utilizzo nel contract. Punture di insetti e cicatrici visibili contribuiscono a valorizzare le caratteristiche di unicità ed eleganza di questa pelle.

ELMOSOFT is a soft and pliable Semi-Aniline leather. Outstanding comfort combined with excellent durability and an extensive shade card, makes it very suitable for the public environment. Visible insect-bites and scars from healed wounds add to the elegant quality of the leather.

ELMOSOFT. Weiches, geschmeidiges Semi-Anilinder, Ein sehr strapazierfähiges und im Griff komfortables Leder in reicher Farbauswahl, hervorragend geeignet für Objektausstattungen. Sichtbar erhaltene Insektenstiche und kleine vernarbte Wunden betonen die naturechte Eleganz.

Elmosoft est un cuir semi-aniline, souple et doux. Son confort élevé, associé à une grande robustesse et à une vaste gamme de coloris disponibles, le rend particulièrement indiqué pour les collectivités. Les piqûres d'insectes et les cicatrices visibles contribuent à rehausser le caractère élégant du cuir.

ELMOSOFT es una suave y flexible piel semianilina. Su destacable confort combinado con excelente durabilidad y una amplia carta de colores, la hacen muy adecuada para ambientes públicos. Picaduras de insectos visibles y cicatrices de heridas muestran la elegante calidad de la piel.

ELMOSOFT は、柔らかくフレキシブルなセミアニリンレザーです。柔らかいうえに頑丈でカラー展開も豊かなため、コントラクトユースに適しています。レザーにみられる虫刺されの痕や傷痕は、世界に二つと同じものがない天然素材としての価値を裏付けるものであり、エレガントな特性を際立たせます。

Maintenance advice

Table-tops and seat panels/shells made of wood, polypropylene, polyethylene or polyurethane

May be cleaned with a damp, soft cloth or sponge using lukewarm water. Neutral diluted detergent may also be used in lukewarm water. Strong detergents which contain bleach or which have an abrasive effect (such as scouring creams) should be avoided at all costs.

Laminate surfaces

May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces.

Chrome, anodised or lacquered surfaces

May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces. The products must be properly rinsed so that traces of the detergents do not spoil the special finish by causing the surface to turn opaque or to oxidise. After washing, dry it with a chamois leather. Polishes for chromed or lacquered finishes are not recommended: they should be used with caution and only by experts since the abrasive action may irreparably damage the surfaces.

Fabric

May be treated using damp brushes, possibly with light detergent or vinegar, both of which should be very dilute. Alternatively, it can be drycleaned using appropriate products. For best care and maintenance results please follow the indications given by the ENI-EN-ISO 3758 symbols on the relevant fabric information sheet.

Hard leather grade 1, hard leather grade 2 and soft leather

Must not be cleaned with water as this may leave marks. It is better to use quality products for cleaning leather, carefully following the instructions of the manufacturer of the cleaning product. In case of doubt test the product on a small area which is normally hidden from view in order to check the result, waiting at least 24 hours to allow any possible problems to develop.

Stainless steel

Clean regularly (every 15 to 20 days) with a soft damp cloth or with special products for cleaning stainless steel available on the market.

Faux leather

May be cleaned with a damp, soft cloth using lukewarm water.
