

CILA GO

arper

Cila Go

Learning environments designed to inspire. Cila Go proposes new aesthetic possibilities for the Learning Sector while providing all the functionality necessary for this specific context – mobility for group collaboration, quiet space for independent work, accessories for technology-enabled learning for the ever-expanding notion of the classroom. Cila Go offers expanded possibilities for seating and includes a stool, a chair and an armchair designed for learning and training contexts and contract uses. The Cila Go base with a seat pad serves as a stool with castors. Compact yet supremely functional, it offers storage options for books, briefcases or backpacks, tablets, computers, and supplies. The multi-base base extends seating configurations from modular work environment to the responsive classroom. The combination of Cila Go base with Cila chair shells, with or without armrests, becomes a flexible workstation designed specifically for the Learning Sector. Wheels on the base create ease in forming flexible seating configurations in classrooms—from bigger group arrangements in rows or circles, small group pod learning, or individual space. A desktop with swing arm accommodates laptops, tablets, books, or notebooks; sized 50x33,5 cm, it is available in black or white.

Designer

Lievore Altherr – Alberto Lievore (Buenos Aires, 1948) and Jeannette Altherr (Heidelberg, 1965) – begins in 2016 after a 25 year trajectory as Lievore Altherr Molina. The Barcelona-based studio specializes in product design & development, strategic consulting, creative direction, art direction, and architecture for internationally recognized design companies. Lievore Altherr develops projects using an established strategy: a creative

concept integrating product design and its communication. This holistic approach, humanist character, and the search for the essential in their projects – combined with a sensibility that transmits harmony and balance – characterize the designs of Lievore Altherr.
