

ASTON

arper

Aston

Strong and decisive, Aston sits at the head of the table. Defying the conventions of the typical boardroom chair or executive lounge, its linear profile and aerodynamic lines are engineered for comfort and performance. With mechanics sheathed in its sleek form, Aston is ergonomic yet light, making it perfect for both home and work. Especially designed for work environments and applications, Aston is available in three different back heights – Conference, Office and Direction – covered in leather or fabric in a wide range of colors. All models are available in four-way base with swivel mechanism, automatic seat repositioning mechanism and tilt adjustment or five-way base with castors and height-adjustment mechanism, or with a synchronized adjustment. The Aston Lounge features a base with a swivel mechanism or an automatic seat repositioning mechanism. Designed especially for waiting and lounge areas, the Aston Lounge has an upholstered footrest and side table.

arper

Designer

Jean-Marie Massaud, 2006

Since the beginning of his career (as 1990 graduate of Paris' ENSCI-Les Ateliers, Paris Design Institute), Jean-Marie Massaud has been working on an extensive range of works, stretching from architecture to objects, from one-off project to serial ones, from macro environment down to micro contexts. Major brands (Arper, Axor, Christofle, Air France, Toyota) have solicited his ability to mix comfort and elegance, zeitgeist and heritage, generosity and distinction. Beyond these elegant designs (from stadium, flying hotel, concept-car to art

table and furniture collections) his quest for lightness – in matters of essence – synthesize three broader stakes: individual and collective fulfillment, economic and industrial efficiency, and environmental concerns. His creations, whether speculative or pragmatic, explore this imperative paradigm: reconciling pleasure with responsibility, the individual with the collective.

Awards
