

**EXPLICACION DEL MODELO**

Rafa García ha creado la bancada Menú con el propósito de ofrecer un diseño diferenciado y mutante, integrable en cualquier espacio.

Menú ofrece múltiples opciones en un sólo producto. Su principal virtud es su enorme capacidad de adaptación a las necesidades de cada proyecto.

Menú está diseñada para adaptarse estéticamente al resto de piezas que componen el ambiente, ya que es posible seleccionar entre diferentes acabados para el zócalo (haya tintada o tapizada), para las patas de metal (cromado o lacado negro) y para las patas de madera (haya tintada o lacada).

La adaptabilidad de esta bancada también viene dada por sus 5 bancos sin respaldo, sus 4 módulos y las 2 opciones de ángulo que ofrece para hacer rincón o esquina.

Otro aspecto que la diferencia es la posibilidad de elegir el respaldo liso o con botones.

Menú se puede tapizar tanto en tela, piel o piel sintética.

La unión entre módulos con pata de metal y pata de madera se realiza mediante carracas. Los módulos con zócalo van sueltos.

**IMPORTANTE**

**Estructura tapizada fija, no desfundable.**  
Las solicitudes de composiciones modulares deben adjuntar un plano en planta al realizar el pedido.

Por favor, no olvide indicar en el pedido el tipo de acabado deseado para el zócalo o las patas: referencia de tela, acabado del haya o del metal.

**CARACTERISTICAS TECNICAS**

- Estructura de madera forrada en espuma CMHR 30kg de 10mm de espesor.
- Bastidor de asiento preparado con tablero de partículas y espuma S/D 40kg, recubierta de fibra de 150gr.
- Bastidor de respaldo preparado con espuma CMHR 35kg Ultracel recubierta de fibra de 150gr.
- Zócalo tapizado: estructura de tablero de partículas recubierta de espuma CMHR 30kg y patas de PEBD (polietileno de baja densidad).
- Zócalo tintado: estructura de madera de DM chapada en haya y patas de PEBD.
- Patas de madera: madera de haya y taco anti-rozamiento de PEBD.
- Patas de metal: varilla de acero F1 de 14mm acabado cromado o pintado epoxi negro y taco anti-rozamiento de PEBD.

**DESCRIPTION**

Rafa García created the Menú bench in order to offer a different, adaptable design, which can be integrated into any space.

To this end, the seating system is comprised of five benches, four modules and two corner units. The feet also fit any project with various finishes available for the plinth (stained or upholstered beech), metal legs (chromed or black lacquer) or wooden legs (stained or lacquered beech).

The back adds a touch of character with optional buttons.

The product is available in fabric, leather or synthetic leather.

Modules with metal or wooden legs can be joined by using a ratchet system. Modules with plinths are free-standing.

**IMPORTANT**

**The covers are not removable.**

**Modular combinations must include a plan when making the order.**

**Please remember to indicate the desired type of finish for the plinth or legs on the order: fabric reference, beech or metal finish.**

**TECHNICAL CHARACTERISTICS**

- Wooden structure with a 10mm CMHR 30kg foam.
- Seat area fitted with chip board and S/D 40kg foam, covered in 150g fibre.
- Back area fitted with CMHR 35kg foam covered in 150g fibre.
- Upholstered base: chip board structure covered in CMHR 30kg foam and low density polyethylene feet.
- Stained base: wooden structure of DM veneered in beech and low density polyethylene feet.
- Wooden feet: beech and anti-scratch glide of low density polyethylene.
- Metal feet: 14mm F1 steel structure, chromed finished or black epoxy coating and anti-scratch glide of low density polyethylene.

**CARACTERISTIQUES**

Rafa Garcia a créé la banquette Menu dans le but de proposer un design différencié et mutant, intégrable dans grand nombre d'espaces.

Menu offre de multiples options dans un seul produit. Sa principale vertu est son énorme capacité d'adaptation aux nécessités de chaque projet.

Menu est dessiné pour s'adapter esthétiquement au reste des pièces qui composent le projet grâce aux nombreuses options: socle en hêtre teinté ou recouvert de tissu, pieds métal chromés ou laqués noir, pieds en hêtre teinté ou laqué.

Adaptabilité grâce à ses 5 banquettes sans dossier, ses 4 modules et ses 2 types d'angle (angle ou coin).

Le dossier peut être avec ou sans boutons (capitonné ou non).

Disponible en tissu, cuir ou cuir synthétique.

L'union des modules avec pied en bois ou métal se fait à l'aide de pièces d'union. Les modules avec socle ne sont jamais reliés.

**IMPORTANT**

**Structure fixe non déhoussable.**

**Toute commande d'ensemble modulable doit être accompagnée d'un plan se lisant toujours vue de face.**

**Ne pas oublier non plus d'indiquer le type de finition désiré pour le socle ou les pieds : revêtement, couleur du bois ou du métal.**

**CARACTERISTIQUES TECHNIQUES**

- Structure en bois recouverte de mousse CMHR 30kg de 10mm d'épaisseur.
- Châssis d'assise en panneau de particules et mousse S/D 40kg, recouverte de fibre de 150gr.
- Châssis de dos recouvert de mousse CMHR 35kg et fibre de 150gr.
- Socle tapissé: structure en panneau de particules recouvert de mousse CMHR 30kg. Pieds en PEBD (polyéthylène basse densité).
- Socle en bois teinté: structure en médium plaqué hêtre et pieds en PEBD.
- Pieds bois: en hêtre et patin en PEBD.
- Pieds métal: en acier F-1 de 14mm finition chromé ou peint epoxy noir, patin en PEBD.

004 CENIZA ASH GREY CENDRÉE

006 ANTRACITA ANTHRACITE

039 NEGRO BLACK NOIR

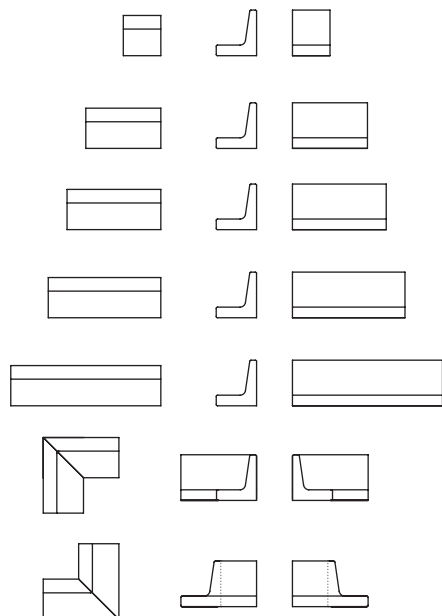

009 CEREZO CHERRY MERISIER

Los respaldos con botones tienen un incremento de precio diferente para cada medida de módulo. Para calcular el precio de las composiciones con botones, sólo hay que sumar los puntos correspondientes a la columna + BOTONES.

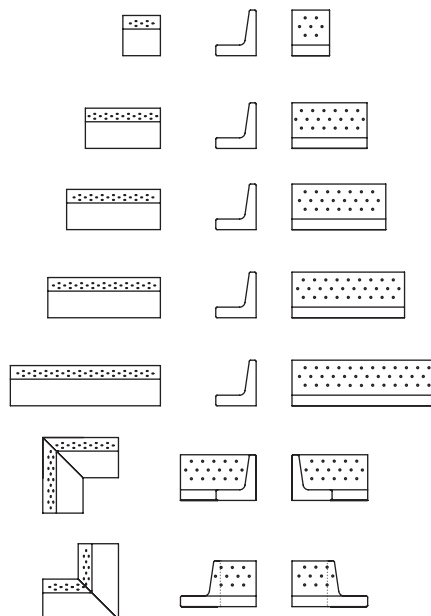

The price increase for buttoned backs depends on the measurement of the module. To calculate the price of a composition with buttons, add to each module the points shown in the following chart + BUTTONS.

Le supplément pour les boutons de dos est variable selon les modules. Pour calculer une composition avec boutons, il suffit de rajouter le nombre de points de la colonne + BOUTONS, à la somme de points totale.
