

Chair

Francesc Rifé**2021**

The industrial character of Fosca chair is the result of a framework of rigorous metal lines and an almost naked seat and backrest. Lightweight pieces that come in various finishes, capable of connecting with both residential and contract and hospitality spaces. Trying to be as rational as possible, the collection grows and is presented in a wide range of upholsteries and typologies: chairs, armchairs, high and medium stools and stools without backrest and with handle in three different heights.

Interior and industrial designer, Francesc Rifé founds his own studio in Barcelona in 1994. Influenced by minimalism and following a familiar tradition linked to craftsmanship, his work focuses on ways of approaching spatial order and proportion. Currently, Rifé leads a team of professionals from several design fields that has won several awards: Contract World, Red Dot, HiP in Chicago, ICFF Editors, FAD, Delta and several ASCER awards.
