

# Lounge chair

Francesc Rifé

2017

A collection fully rational. A sophisticated body rests on a visible structure, interpreted as the minimalist element of the whole. With no superfluous details, RC Wood is made of solid ash wood, available in natural or black. The collection keeps growing and presents a great range of formats: chairs, armchairs, sofas and benches with and without tables. All the typologies are connected through a language of ergonomic and wide forms. Its main feature is a curved backrest that extends in the form of armrests and embraces the user.

Interior and industrial designer, Francesc Rifé founds his own studio in Barcelona in 1994. Influenced by minimalism and following a familiar tradition linked to craftsmanship, his work focuses on ways of approaching spatial order and proportion. Currently, Rifé leads a team of professionals from several design fields that has won several awards: Contract World, Red Dot, HiP in Chicago, ICFF Editors, FAD, Delta and several ASCER awards.
