Measures

Accessories

Felt leg pads

OH! is a friendly design concept for a lounge style seating solution, which includes a table option. Its simple and aesthetic lines, as well as its multiple finishing possibilities, help it adapt to a wide variety of both public and private surroundings. The OH!'s shell is plastic injected and the fixed or swivel metal structure can be chromed or painted. It also can be upholstered in a wide range of colours and combinations. A sled base or 4 leg swivel base is available as well as the option of upholstered seat and back pads. The family includes supplementary, occasional tables.
